Alice has a mathematics test for which she is underprepared. She has to do at least one question correctly to pass the test. He decides to do a question which needs her to find the smallest prime number which is larger than a given integer N. Your task is to find and return an integer value representing the smallest prime number larger than N.	046
Input Format:	
input1: An integer value N Output Format:	182
Return an integer value representing the smallest prime number larger than N. Sample Input 6	. (
Sample Input 6 Sample Output	,5*
Sample Output	
Sample Output 7	x6 +
